No Fiddling While World Burns - - Ike

Take Your Choice Political Wise Men, Commentators and Poll-Takers Have Their Say About Next Tuesday's Election.

GALLUP POLL—Poll figures give the Democrats a comfortable lead. . . . If election results show that "the Republicans just didn't make it"—as the Gallup poll indicates—it will be because the working man and farmer voted as his pocketbook told him to. (See page 17)

ROSCOE DRUMMOND (Chief Washington correspondent of the New York Herald-Tribune, whose column now appears in 120 American newspapers.) He asks: "Are Republicans Committing Hari-Kari?" He says, the Old Guard wing of the party is going so far as to help Democrats in some states. This will split the Republican party. (See page 20)

JOSEPH ALSOP—"Every Republican from the President down has been engaged in a violent, almost convulsive effort to reverse the Democratic trend. . . . What makes this election so tricky is that there is some indication that this effort might succeed." (See page 20)

JOHN FRANKLIN CARTER—Elections can be won in the last moment, and there is a Republican trend within the Democratic trend—but "I'll stand on my forecast of a Democratic majority of 45 in the House and 8 to 10 in the Senate." (See page 20)

JAY G. HAYDEN—Two major arguments why President Eisenhower should be put under the wraps of a Democratic Congress have turned against their makers. . . . Considerable economic improvements, drop in unemployment, lower food prices and higher net incomes of workers have been stressed by Administration, while Secretary Dulles chalked up successes in foreign policy. (See page 20)

2 North Artery Spans to End Somerville Jams

Plans to eliminate two traffic bottlenecks on McGrath Highway, Somerville, were announced last night by the Metropolitan District Commission.

A six-lane railroad bridge will replace the obsolete Squires bridge. An overpass, a mile and one-half long, will be built over Washington st. and Somerville av. to clear up another traffic block.

Red Cross Forced to Charge \$1.75-\$2.50 a Pint for Blood

Lack of Funds Blamed for Passing on Costs

Massachusetts Hospitals Unaffected Yet by Plan, Local Officials Say

WASHINGTON, Oct. 28 (UP)—The Red Cross announced today it will have to start charging from \$1.75 to \$2.50 a pint for blood due to lack of funds to finance its free blood program.

The charge will be for supplies and transportation, not for the blood itself, although officials conceded the effect will be about the same.

Officials said the organization is beginning to shift some of the cost of processing and handling to participating hospitals. Presumably, they said, the hospitals will pass the charge along to patients receiving the blood.

Such charges recently have been instituted in 10 of the 45 Red Cross blood donor regions. They are Savannah, Asheville, N. C.; Columbia, S. C.; Mobile, Yalaha, Wash.; Boise, Ia.; Portland, Or.; San Jose, Calif.; Lansing, Mich.; and Great Falls, Mont.

Officials said negotiations are under way in other areas, including Philadelphia. They also predicted the number of regions forced to charge for blood will double in the next year.

No Bay State Plans to Charge for Blood Before Next July 1

Massachusetts Red Cross officials last night said there were no plans to charge hospitals or patients for blood in the immediate future.

But Gen. Daniel Needham, chairman of the blood program, said such a plan has been "under discussion among chapters and with officials of the Massachusetts Medical Society and hospitals."

"No policy as yet has been agreed upon regarding this matter," Needham said. "It's still in the discussion stage. Some policy will be decided upon soon, but if it is decided to put the plan into effect, it would not start before next July 1, the start of our next fiscal year."

Boston Hurricanes Outlay \$650,000, Agency Reports

The Red Cross in New England, sheltered and fed more than 18,000 victims of hurricanes Carol and Edna at an estimated cost of \$650,000, Ellsworth Bunker, president of the American National Red Cross, told some 500 members at the 39th annual meeting of the Boston Metropolitan Chapter in John Hancock Hall last night.

"Now still another task of rehabilitation confronts us," he said, "as we continue the work of helping the victims of Carol and Edna back to their feet."

Bunker told the meeting that "there are certain alternatives before us. One is the fact that armed conflict might be forced upon us." If that happens, he said, demands upon the Red Cross "would dwarf anything we have yet known."

"I believe it is inescapable that the Red Cross must assume the possibility of war," Bunker said. "For this reason, we have initiated and are pursuing diligently a study to determine what the demands on Red Cross might be and how we might best meet them."

\$29,000 Pin Lost in N. Y. by Daughter of Joseph Kennedy

NEW YORK, Oct. 28 (AP)—The loss of a \$20,000 platinum pin, studded with 82 diamonds, was reported tonight by the daughter of Joseph Kennedy, former Ambassador to Great Britain.

Mrs. Eunice Kennedy Scherzer, through her insurance company, said she noticed the pin was missing while returning to the Plaza Hotel last Friday from a charity function at the Waldorf Astoria.

She returned to the Waldorf Astoria and reported the loss to the management and later to her insurance company.

Elect GOP Congress, Avoid Jam, He Urges

WASHINGTON, Oct. 28 (AP)—President Eisenhower appealed tonight for election of another Republican Congress to "keep our government from political fiddling while the world burns" and from winding up "in a hopeless jam."

"Confusion can be avoided and steady progress assured only by electing a Republican majority to the Congress," Mr. Eisenhower declared in a speech at a dinner sponsored by the National Citizens for Eisenhower Congressional Committee.

The committee is an organization of independent voters and dissident Democrats—political elements which contributed to the President's 1952 victory.

The President, battling hard for a G. O. P. victory in next Tuesday's Congressional elections, told a nationwide television and radio audience:

Prosperous 1955 Likely, Weeks Tells Industrialists

Two national leaders last night hit at "false propaganda" regarding the economic situation and unemployment and painted an optimistic picture of the future in addresses in Boston.

Secretary of Commerce Sinclair Weeks and Harold C. McClellan, president of the National Association of Manufacturers, speaking at the 9th annual meeting of the Associated Industrialists of Massachusetts, at the Hotel Statler, cited figures to prove unemployment had been on the decrease in the past few months.

McClellan, in an interview, declared: "Unemployment is always a serious problem and anyone who discounts it is not in my book. There are certainly too many unemployed now, but the situation is improving," he said pointing to the decrease in the past few months of the unemployed figure.

Venire Called for 2 Sheppard Jury Alternates

By MARGARET PARTON
CLEVELAND, Oct. 28 (UP)—A jury of seven solemn men and five grave women swore today they would "well and truly try and true deliverance make" in the case of the state of Ohio against Dr. Samuel H. Sheppard, charged with the July 4 murder of his wife.

Completing 8 1/2 days of legal wrangling, the jury was finally impaneled at 1:44 this afternoon after both the prosecution and the defense said they were satisfied at last with the Cleveland citizens who will be asked to decide whether Marilyn Sheppard was battered to death by her handsome husband or, as the young osteopath claims, by a "bushy-haired stranger."

Did Mamie Drop Hint on Ike's 1956 Plans?

WASHINGTON, Oct. 28 (UP)—Did Mrs. Mamie Eisenhower throw out a hint today on how long the Eisenhower plan, to be in the White House? The First Lady was asked by newswoman lady whether there would be any "Eisenhower china" added to the White House collection. She replied: "We'll have to wait and see—it will depend on what gets broken in the next two years."

Ike Ungrateful for Democratic Aid, Says Adlai

TRENTON, N. J., Oct. 28 (AP)—Adlai Stevenson said tonight President Eisenhower's prediction of a political "cold war" if a Democratic Congress is elected seems "singularly unrealistic and ungrateful."

Stevenson, the Democrats' defeated 1952 Presidential candidate, said in a television speech, "Where the Eisenhower program has been responsible and constructive, it has not only received unstinting Democratic support, but that support has in many crucial cases provided the President his margin of victory."

The State Campaign Hospital Wasted--Murphy Need GOP Control--Herter

By JOHN HARRIS
 With Tuesday's voting time "just around the corner," ticket leaders increased their whirlwind activities yesterday by trying to take in additional rallies and almost any group of voters in sight to press their appeal for votes.

At rallies and on TV they made these points:

Robert F. Murphy, Democratic nominee for Governor—A pledge that the new Lemuel Shattuck Hospital in Forest Hills will be open "to all who need treatment and care, to those with arthritis, heart trouble, diabetes and other chronic diseases."

Gov. Christian A. Herter—A call to Democrats and Independents to join with Republicans and vote the Republican ticket so that he will have a Republican House and Senate

Senator Leverett Saltonstall—Praise of the Eisenhower Administration's "achievements in the field of health" and a declaration the Senator helped Federal legislation that gave 61 Bay State communities 1852 hospital beds and 771 more for chronically ill patients.
